

Electronics Technician for Devices and Systems (m/f/d)

With more than 30 years of experience in Partial Discharge (PD) measurement, Power Diagnostix is a market leader offering the broadest range of products for portable, on-line, off-line, and monitoring PD solutions. To enhance our experienced team, we are looking for motivated and qualified employees to strengthen our team in Aachen.

Your tasks:

- Printed circuit board assembly
- Assembly of electronic measuring devices and related components
- Cable assembly
- Control cabinet construction for monitoring systems
- Device testing incl. documentation
- Preparation of work instructions and test protocols
- Inventory maintenance
- Clean, safe, and organized work

Your profile

- Education in the field of electronics
- Experience in dealing with electronic assemblies
- Quality awareness and ability to work in a team
- Work experience desirable, but not absolutely necessary
- Good communication skills in German

Power Diagnostix Systems

Power Diagnostix is a dynamic and international company in a growing market. You will work on a variety of tasks during flexible working hours with performance-linked wage in a pleasant and friendly working atmosphere.

Please contact Barbara Geller, Manager Human Resources and Finance & Controlling, for further information and send your application with curriculum vitae, your availability, and desired salary via e-mail to application@pdix.com.
